Richmond, Jan. 1.

Virginia Legislature.

Yesterday, the H. of D had a second discussion upon the question of divorces, on a report in the case of Sally Carter praying to be divorced from her husband Thompson Carter. Mr. Smith moved to amend the report by a resolution that her petition was reasonable. In support of this question he entered into the abstract question of divorce, contending that it was not forbidden by Holy Writ to part a woman from her husband in certain cases; that it was sometimes required by a regard to social order; that where, as in the present case, there was abandonment bad usage, and fraud in the formation of the marriage contract, justice required the dissolution; he said this was a stronger case, than the famous one which had occurred in Philadelphia, and had induced the Legislature to divorce the parties; that there a foreigner had indeed imposed upon the girl by assuming pretensions which he could not support; but here, the man had not only passed himself off as a man of wealth, which he did not posses, but he had abandoned his wife for three years and permitted her to suffer for the want of the necessaries of life. Mr. S. objected to the expedient which had been sometimes proposed in the house of divorcing parties without the permission of marrying again, this he contended was against good order, because nature would be obeyed, and a dissoluteness of manners would thus creep in; that it was the interest of society that every person should have either a husband or a wife.

Mr. Doddridge opposed the motion, and conjured the house not to grant a divorce upon such grounds; that in every case, where the parties were disappointed in each others fortune, this precedent might be cited to justify a divorce. He asked if the house would grant a separation, when the husband should become an idiot, a lunatic, incapable of performing the conditions of the contract? As to the case cited from Philadelphia, he said that the divorce had been granted, because the marriage was void at first, being contracted while the female was an infant without the consent of the parties.

Mr. Smyth replied; when Mr. Mercer moved to amend the amendment, by a proviso which would forbid the husband T. Carter from marrying again during the life time of his wife.

Mr Colston said, that he thought he could see through the whole of this case; the match had disappointed the father in law, who finding his daughter not so elegantly married as he wished, had irritated the husband by those innumerable and nameless vexations, with which some are so well acquainted, and had goaded the man to go away. If divorces were granted on such grounds our system would soon be not more respected than that of Rhode Island, where divorces are so easily obtained, that a court of New York had lately hung a man or sentenced him to the penitentiary for bigamy, though he had plead a divorce in the state of Rhode Island.

Mr. Estill declared that he considered this house as the most incompetent tribunal to investigate the facts, on which divorces were prayed for, and that it was far better to leave it to a court of chancery to try the facts, and if those facts were proven, then for the court to consummate the divorce.

The amendment to the amendment was lost, as also the original amendment, ayes 52, noes 75, and the report of the committee against the petition was then confirmed.

The house then went into committee of the whole, on the Map Bill, Mr. Mallory in the chair.

The original bill proposed by Mr. J. Thompson, of T. the chairman of the select committee on this subject, was read; it goes in unconditional terms to repeal the act of last winter for having a map taken of this state and a chart of each county,

Mr. Mercer of L. proposed a substitute which goes to repeal so much of that act as gives the county courts the power to contract for a chart of each county, and transfers it exclusively to the Executive, with power to contract for the survey of all or several of the counties with one agent, giving the Executive also the power to use their discretion as to the number of points in each county which they would have noted on the chart, limiting the whole expense of the survey of the state, exclusive of engraving, &c. to $50,000, making it also the duty of the county surveyors to transmit regularly to the board of public works a map of every new road that is run, village established, &c.

Mr. Mercer spoke a considerable time in favor of this proposition, and against a repeal of the law of last winter, dilating upon both the military and civil advantages of geographical knowledge, and of having a correct map for the whole state and a chart for each county, stating that the reason why so many of the contracts made under the law were so high, was because the courts had misinterpreted it and had given too large a scope to the contemplated surveys; he stated that in some cases the contracts had been made for 5 or 600 dollars when the law had been correctly construed; he had no doubt that the whole work could be done for 50,000 dollars. Mr. M. showed how easily the money could be spared from the fund for internal improvement; that its revenue next year may be expected to be at least 60,000 dollars; and how was this to be used? There was only one scheme ripe for the operations of this fund; to wit, the improvement of the river Rappahannock, whose 3 5ths had been subscribed by individuals: that he was willing to contribute as the 2 5ths of the proportion of the board of public works 40,000 dollars: the work would not be done in less than three years, being not more than 12 or 13,000 dollars; that the Roanoke navigation, he was happy this day to hear by a gentleman employed on that subject in North Carolina could be completed without the aid of this State; but Mr. M. said he was for contributing $50,000, to be expended in three years more—an abundant fund, therefore, would be left for the completion of the map—Mr. M. entered into a particular calculation to shew that this expence would be reimbursed by the sale of the maps.

Mr. Banks proposed another substitute which went to repeal the law of the last winter, respecting however, the contracts which had been already made. He said he had been a friend of the scheme last winter; supposing that would cost no more than had been calculated—but he had found that the expense was likely to prove much greater, he produced an authenticated copy of the contracts which had been made by the courts, from which he inferred it would cost not less than from 125 to 150,000 dollars; he pointed out the variety in the terms of the contract; in Wythe, for instance, $400; in Gloucester, 2000; in Kanawha, a very large county but $550. He relied upon fact, in preference to all calculation; and contended it was much better to employ the money of the fund for internal improvement in roads and canals, than in this precarious and expensive undertaking.

Mr. Doddridge stated as a fact, that a man of great abilities, and who could give security to the amount of half a million of dollars, was ready to undertake the whole state for 50,000.

Mr. Mercer pointed out several contracts made to shew that they might be done probably for $500.

Mr. Smyth replied; when Mr. Mercer moved to amend the amendment, by a proviso which would forbid the husband T. Carter from marrying again during the life time of his wife.

Mr. Mercer spoke a considerable time in favor of this proposition, and against a repeal of the law of last winter, dilating upon both the military and civil advantages of geographical knowledge, and of having a correct map of the whole state and a chart for each county, stating that the reason why so many of the contracts made under the law were so high, was because the courts had misinterpreted it and had given too large a scope to the contemplated surveys; he stated that in some cases the contracts had been made for 5 or 600 dollars where the law had been correctly construed; he had no doubt that the whole work could be done for 50,000 dollars. He relied upon fact, in preference to all calculation; and contended it was much better to employ the money of the fund for internal improvement in roads and canals, than in this precarious and expensive undertaking.

Mr. Doddridge stated as a fact, that a man of great abilities, and who could give security to the amount of half a million of dollars, was ready to undertake the whole state for 50,000.

Mr. Mercer pointed out several contracts made to shew that they might be done probably for $350.

The question was then taken on Mr Bank's bill and lost, ayes 66, noes 76.

Mr. Mercers' substitute was then adopted, when he committee rose, and the house concurred.

On motion of Mr. Dade, leave was granted to bring in a bill to amend the militia laws of this commonwealth, with a view of conforming them to the act of congress, which requires a full Colonel to each regiment.

Mr. Buckner, of Fauquier proposed a resolution in honor of Lt. John W. Kincaid, for his bravery at the battle of Bridgewater, and at the seige at Fort Erie, where he received three wounds. Referred to the select committee.

The petition of sundry persons concerned in the shad and herring fishery on the Potomac, complaining of the injuries they suffer from the steam boats. The noise of these boats can be heard several miles: the agitation of the air and water, drive away the fish and diminish the value of their hauls.—The petitioners pray that the steam boats may be forbidden to run the month of April. The reading of this petition occupied the attention of the house about half an hour, a part of it consisting of a philosophical diequisition on the effect of thunder and the firing of cannon, in driving the fish from shallow to deep water. On the question of reference the house divided.

ALEXANDRIA.

SATURDAY, JANUARY 4.

FROM OUR CORRESPONDENT AT WASHINGTON.

Friday, January 3.

Yesterday's congressional novelty was of a kind that bids fair to make some noise in the union. The speaker laid before the house of Representatives a letter from Edward Lewis of Mississippi, charging Judge Harry Toulmin with various acts of judicial malversation. Among these were holding courts on the Lord's Day—Delaying the determination of causes for many years, for corrupt purposes—Inflicting corporeal punishments to excess beyond the limits prescribed by the criminal law. This letter was written in terms of verbal asperity so very unfit for a concern of so much importance, and in some respects with such malignity, as to suggest to some of the members suspicions of a malignant intention on the part of the writer, and to throw over it all the charges the complexion of calumny. Mr. Grosvenor earnestly deprecated the establishing a precedent which would throw open slandthe doors of Congress to every derer who from private malice might be disposed to injure the most respectable characters and highest magistracy in the union. Mr. Randolph on the other hand insisted upon the right of every citizen however humble or even mean to petition that house and to be heard in it, and dwelt particularly on the impropriety of so high a public functionary as a judge, violating the ordinances of religion by the public breach of the Sabbath.—Mr. Webster said it would be extraordinary if the subject were dismissed, as the accuser offered to prove the charges and the house was bound to act upon them; because if guilty the judge ought to be displaced, and if innocent he ought to be acquitted.

Mr. Southard said, that if a fourth of the offences charged were true, the judge deserved punisment—holding courts on Sunday was a contempt of the people and disrespectful to the judicial office; and the infliction of even one stripe beyond what the law prescribed, was a gross outrage upon the citizen. Mr. Johnson said Mr. Toulmin bore an excellent character and deservedly, while he lived in Kentucky. Mr. Robertson also spoke favorably of his character, but thought that by no means sufficient ground for rejecting the charges, which for the sake of public justice as well as of justice to Mr. Toulmin himself, if he were innocent, ought to be inquired into. The conclusion of the matter was a reference of the letter, charges and papers, to the committee on the judiciary.

The flag of the U. States is to be altered. The stripes are to be reduced permanently to their original number of thirteen; but the stars are to be constantly increased in number equal to the number of the states in the Union. The first change to take place on the 4th of July next, and the change of every additional star after that to take place on the succeeding 4th of July and not before.

Extract of a letter from Cropper, Benson and Co. dated

LIVERPOOL Nov. 16.

Since our circular of the 9th, we have had a good demand for cotton, the sales of this week being fully 6700 bags. Sea Islands have improved about 1 2 a 1d per lb; NOrleans and Uplands have undergone little alteration. Our import this week is only 330 bags.

Pot ashes are in demand by speculators, and prices have again advanced.—Boston have been sold at 60s; New York may be quoted 57 a 58s; pearls is steady at 72 a 74 per cwt. Quercitron bark has also become an object of speculation, and prices have improved fully 2 a 2 6 per cwt; fine Philadelphia having brought 22 per cwt. In other articles there is no material alteration.

The aggregate average prices of grain for the six weeks previous to the 15th instant, being now finally ascertained, are as follows:

Wheat 92 9 per quarter; rye 55 7. do; oats 27 6. do: barley 44 5 do.

Our ports are now open for these, and also for flour; but peas and beans remain excluded for this quarter. Our market for old grain continues rather to improve, but the new is quite unsaleable at any price. Your wheat, flour and rye will meet with a very rapid sale at high prices. Sour flour is now held at 68 per barrel, and is likely to be higher. Sweet flour would now sell at 75 a 80 per barrel.

American stock continues steady at 89 for 6 per cents. Dollars 4s 11 1 2 per ounce.

Another letter.—

Liverpool, Nov. 16.

"Little rice offers at present, and we have merely to notice a sale of 160 tons to be shipped from America, at 35s. deliverable from the ship's side, and warranted to arrive before 28th Feb. next.—For cotton the demand has improved this week, the sales amounting to about 7000 bags by private contract. 360 Sea-Islands 2s 1d a 2s 3d, and 67 fine 2s 4d 1 2 a 2s 6d; 400 Orleans 17 1 4d a 21d: 1700 bowed 17d a 20d. A public sale yesterday of 300 bags Demerara cotton, went rather flatly, (the quality being in general low) at 18 1 2d a 2od, averaging 20 3 4d. The trade have been the only buyers, and prices are generally rather higher than last week. Pot ashes have again advanced this week: Pearl remain stationary. No alteration in turpentine. We have not had much doing in tobacco since our last, but in the few sales made prices have been fully maintained. Old wheat keeps steady, but new, owing to its inferior quality, is dull and rather lower. Sweet American flour per barrel 70s a 80s: oily and sour 54 a 63s.

Liverpool, 16th November. 1816.

Gentlemen—We have the pleasure to hand you here with the circular of our friends in Suffolk, which we doubt not will be interesting, inasmuch as it will give you the most correct information of the state of our crops in that county, which, for wheat more especially, is the most important.

We are, respectfully, Gentlemen, your most obedient,

BARNARD, BROTHERS & CO.

Messrs.—, New-York.

Ipswich, Nov. 6, 1816.

Sirs,

A long and tedious Harvest being now nearly finished in this District, and supplies of new grain daily increasing at our markets, we have the pleasure of waiting upon you with our Annual Circular.

Wheat is an average crop, but half of it is damp and cold, and some considerable quantity sprouted: no shipments can at present be made without kilndrying; weight according to quality, from fifty five to sixty pounds per bushel Winchester.

Barley is reported to be a full average crop, & probably one half secured without sustaining any material injury, a small quantity in fine condition and colour; but a large proportion is damp, ill coloured, and at present unfit for malting; the other half so much injured, that we apprehend it will never be fit for malting, being so excessively black and damp.

Peas are very abundant in produce, particularly the light soils; but a large proportion is wet and sprouted.

The oat crops though good, is much injured by the weather.

Beans are abundant, but still generally unharvested.

CHARLESTON, Dec. 28.

From Havanna.

By the Schooner Despatch, capt. Vincent, arrived this morning in 14 days from Havanna, we have seen letters to the 12th instant. They mention nothing of the progress of the Patriots. Prices at Havanna — flour Philadelphia 25 dollars, Rice, 7 dollars, and rising, assorted Sugars, 9 a 11 to 10 a 12 dollars; White 10 to 12 1-2 dolls. Brown, 6 1-4 a 8 dollars; Muscovado, 9 dollars, scarce; Molasses, old, 8 rs. per keg; Coffee, new, green, 12½ a 13 dolls. Old, 9 a 11 1-2 scarce, Beef, No. 1, 15 dolls per barrel: Pork, prime, 28 a 30 dolls, scarce, Claret, cask, 15 dollars, Pilot bread, 6 dolls. Lard, 26 dolls. Cheese, 30 dollars, Cod fish, 6 dolls. per box of 100 lbs; Candles, 28 dollars, Spermaceti do 62 1-2 cents per lb.; Soap, 13 dollars.

One of the letters, dated the 10th instant, says, "The British frigate Tay, on board of which was two Millions of Dollars, bound to the Havana, was cast away on Yucaten shore—whether any part of the money is saved, is yet unknown."

INTERESTING CAUSE.

The public attention has been excited by an advertisement of the Marshal of this District, to a cause of great political interest pending in the District Court of the United States, now sitting in this town.

The Spanish brig Pastora, with a very valuable cargo, was recently brought into the port of New-Bedford as a prize to a private armed schooner sailing under the Patriot flag of Buenos Ayres. She has been arrested by process of that court on the libel of Don Juan Stoughton Consul of Ferdinand VII who claims restitution by provisions of the treaty between the United States and Spain, also because the governments in South America have never by any nation been acknowledged independent.

This case, which may have an important bearing on the relations of the United States with the ancient monarchy and the new republic, and which involves principles of the first consequence in national and municipal law, has been discussed in that court by William Sullivan Esqr. for the Spanish consul, and by James T. Austin, Esq. for the prize master, and is reserved for further argument by the same gentlemen after the introduction of additional evidence.

The Life of Patrick Henry.

PROPOSAL

By *James Webster*, of Philadelphia, for publishing by Subscription,

THE LIFE OF

The late Patrick Henry,

Containing many of his Speeches, &c. Embellished with a Likeness: By Wm. Wirt, Esq. of Richmond, (Va.)

Extract from the Port Folio for August, 1815.

"It is not without a sentiment of sincere gratification that we witness, in the following proposal, arrangements making by a competent hand, to do justice to the character of one of the most worthy and distinguished of our countrymen. As a statesman, a civilian, an orator and a patriot, Patrick Henry was entitled to stand in the foremost rank: Nor do his merits claim an inferior station as a firm, an honest, and an honorable man. He was one of those worthies on whose purity suspicion could never fix a stain.

"If nature did much for Mr. Henry's character while living, accident has not been wanting in its favors to his posthumous fame: for to have found such a biographer as Mr. Wirt, so competent as a writer, and so peculiarly well qualified in every moral relation, is not the least fortunate incident in his history.

"In Mr. Wirt's Life of Patrick Henry we are irresistably impelled to expect much: the materials being excellent, and in great abundance, and the writer able and devoted to his subject. Nor do we think that the public will run any risk of being disappointed by bearing us company in our high expectations. We hope, and, indeed, have no doubt that the work will receive a liberal patronage."

CONDITIONS.

The work will be printed on a fine paper, in one octavo volume, and will contain from 350 to 400 pages.

It will be delivered to subscribers, in good calf binding, at three dollars per copy. The price to non subscribers will be three dollars and fifty cents.

PETER,

supposed to be about twenty two or twenty three years of age & about 5 feet 7 or 8 inches high, strong and robust and broad over the shoulders. I will give Fifty Dollars apprehended out of the state of Virginia, and Twenty five if taken in the state or district of Columbia and brought home to me or lodged in a jail so that I get him again. JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PA TENT MEDICINE Store, No. 46 Maiden Lane, N. York.

A FRESH SUPPLY

Of the following genuine Medicines.

For the prevention and cure of Bi lious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills

THIS Medicine has been attended with a degree of success highly gratefu to the inventor's feelings, in several part of the West Indies, and the Southern & Middle States, particularly in N. York Philadelphia, Baltimore, Petersburg Richmond, Norfolk, Edenton, Wilming ton, Charleston, and Savannah. Th testimony of a number of persons at eac of the above places can be adduced, wh have reason to believe, that a timely us of this salutary remedy has, under Provi dence, preserved their lives, when i the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than co lumns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously pro posed as an infallible cure, but the inven tor has every possible reason that can re sult from extensive experience, for be lieving that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequent ly in cases esteemed desperate, and be yond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by per sons in every situation, and of every age.

They are excellently adapted to car off superfluous bile & prevent its mor bid secretions—to restore & amend the appetite—to produce a free perspiratio and thereby prevent colds which is so of ten of fatal consequences. A dose neve fails to remove a cold if taken on its firs appearance—they are celebrated for re moving habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably ef cacious in preventing and curing diso ders attendant on long voyages, and should be procured and carefully preserv ed for use by every seaman.

HAMILTON'S WORM DES TROYING LOZENGES.

Which have cured an immense num ber of persons of both sexes, of every age and in every situation, of various dan gerous complaints arising from worms, and from obstructions or foulness in their stomach and bowels.

This medicine bears no analogy what ever to others of similar titles so com monly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly in nocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the pro duction of worms, and many fatal dis orders. The lozenges are particularly efficacious in carrying off all gross hu mours and eruptions, feverish and bilious complaints, and are the safest and mild est purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Te res, or large round worm; the Ascari des, or small maw-worm; the Cucurbi tina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so cal led from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most diffi cult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grind ing of the teeth in sleep; irregular appe tite, sometimes loathing food, and some times voracious; purging, with slimy & fœtid stools; vomiting; large and hard belly; pains and sickness at the sto mach; slow fever, with small and ir regular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face eoated and flushed.

Persons afflicted with any of the above symptoms, should have immediate re course to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occa sionally during the warm season, will ef fectually prevent "the vomiting an purging of chint"—a dreadful dis order, which annually destroys the hand of the infan part of our citizens likewise th mildest and most cer tain remedy known, and has restored to h alth and strength a great number, when in an advanced stage of this fatal complaint. Particular and plain instruc tions are given for every part of the ne cessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appear ance, and an agreeable taste.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout asthmatic gout, palsy, lumbagoo, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc.

The Genuine Persian Lotion.

The Persian Lotion operates mildly, without impeding the natural, insensible perspira tion, which is essential to health, yet its effects are speedy and permanent, ren dering the skin delicately soft and smooth and improving the complexion.

The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which suffered to accumulate, never fails to in jure and finally ruin them.

Hamilton's Grand Restorative,

Is recommended as an invaluable me dicine for the speedy relief and perman ent cure of the various complaints result ing from dissipated pleasures, juvenile indiscretions, residence in climates un favourable to the constitution, the immo derate use of tea, frequent inoxication of any other destructive intemperance the unskilful or excessive use of mercu ry, the diseases peculiar to females at a certain period of life, bad lyings in, &c.
